My name is Meeka. I love spending time outdoors.

I find plants and animals really interesting. You don't have to go far to see amazing things in nature.

Today I am looking for insects. Insects are small animals with six legs. They usually have wings.

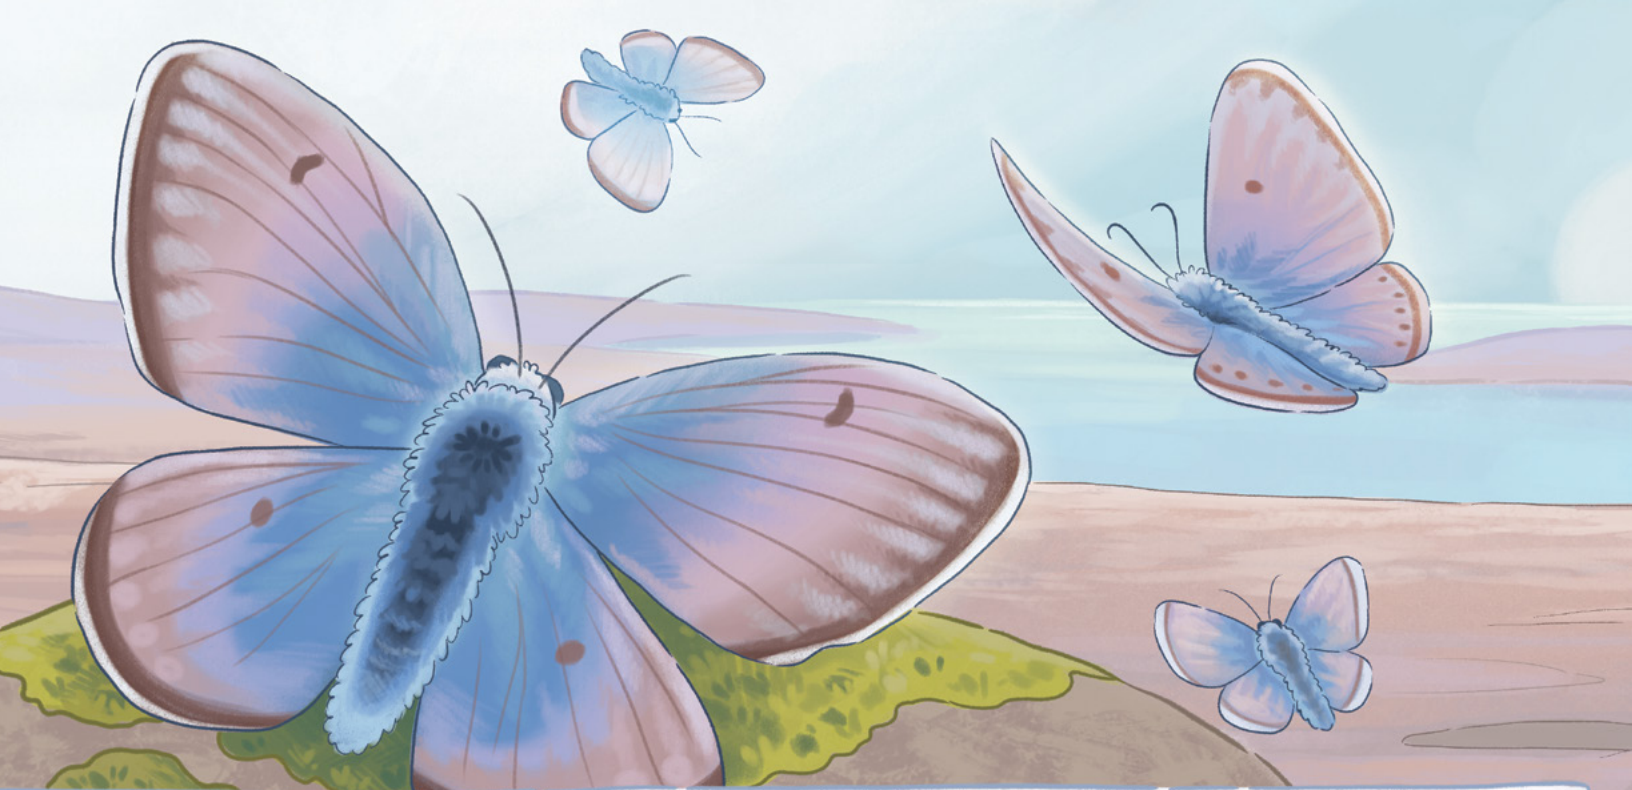

Let's go find some. Follow me!

Houseflies have big, red eyes. They can see in all directions at once. That makes them hard to catch!

 ԳՐԵՆՉՈՆ ՇԸՇՎԵՆԸԴԵՆԵՆ։

Arctic blue butterflies have big, beautiful wings. I love how their little bodies
 can flap such big wings!

Arctic blue butterflies fly from flower to flower looking for nectar to eat.

Blackfly

ᐱᓄᓂᑦ ᑭᐸᑦᑲᑦ ᐱᓄᐱ!

It hurts when blackflies bite. Ouch!

ԴժՅԵՆԵ ԸՆԿԵՆԸՆԵ!

Ladybugs are colourful little beetles. It always
amazes me when I see their round bodies flying.

You can find ladybugs all over the world!

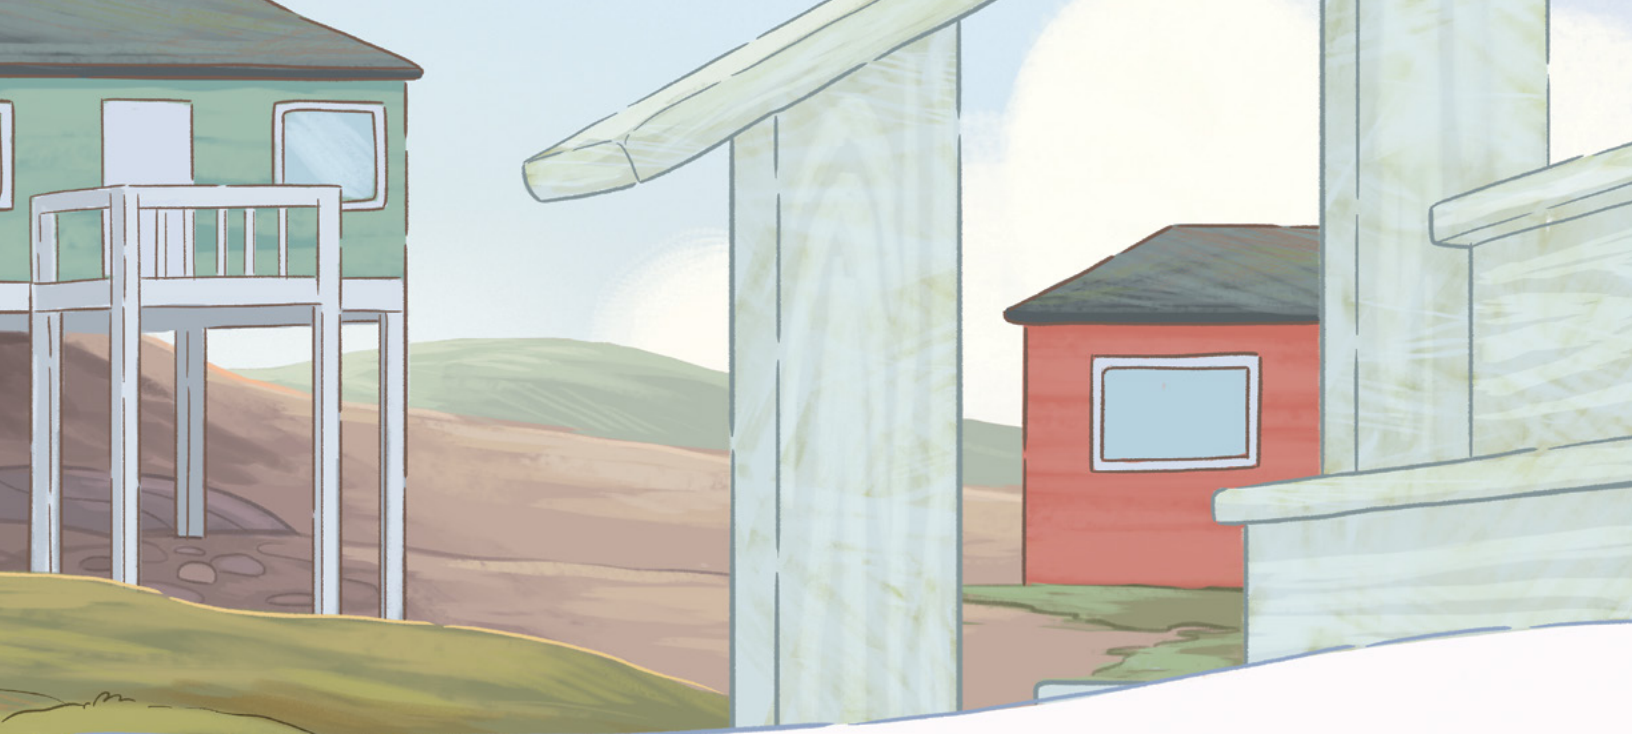

Weevil

[illegible]

When weevils are scared, they stay completely still, hoping they won't be noticed.

Woolly bear caterpillars are really fuzzy!

Woolly bear caterpillars have lots of little legs. But it is hard to see their legs through all that fuzz!

Woolly bear caterpillars eat plants. They like to eat a lot.

Woolly bear caterpillars turn into woolly bear moths.
 It is amazing the way a caterpillar becomes a moth.

The woolly bear moth is usually an orange-brown
 colour with some black spots. It is beautiful!

ᄒᆞᆫᄇᆡᄂᆺᄃᆺᄅᆺᄈᆺᄉᆺ ᄀᆡᄋᆺ ᄌᆡᄎᆺᄏᆺᄐᆺᄑᆺ!

We found a lot of insects today! Which one was your favourite?

I wonder what we'll see tomorrow!
